Our Journey

Established in April 1996, Al Thuriah started as a dream project between two friends: Sheikh Majid Bin Hamad Al Qassimi and Engineer Raymond Khouzami.

Over the years, we evolved from being a contracting firm to a growing integrated real estate family in Sharjah, developing and building the finest, high-quality residential and commercial spaces ranging from villas to high-rise towers.

Al Thuriah's name has always been synonymous with the finest quality and utmost dedication. The astute policies and streamlined internal processes have created a productive work environment which has served as the incubator for great ideas and outstanding projects.

Al Thuriah recognizes the importance of its greatest asset, its employees. Al Thuriah's large family has been the true engine behind the company's success, by combining know-how, dedication and loyalty.

To date, Al Thuriah is one of the leading real estate developers in Sharjah - a position strengthened by its comprehensive integration across its four divisions: Properties, Construction, Leasing and Facilities Management.

Our Brand Manifesto

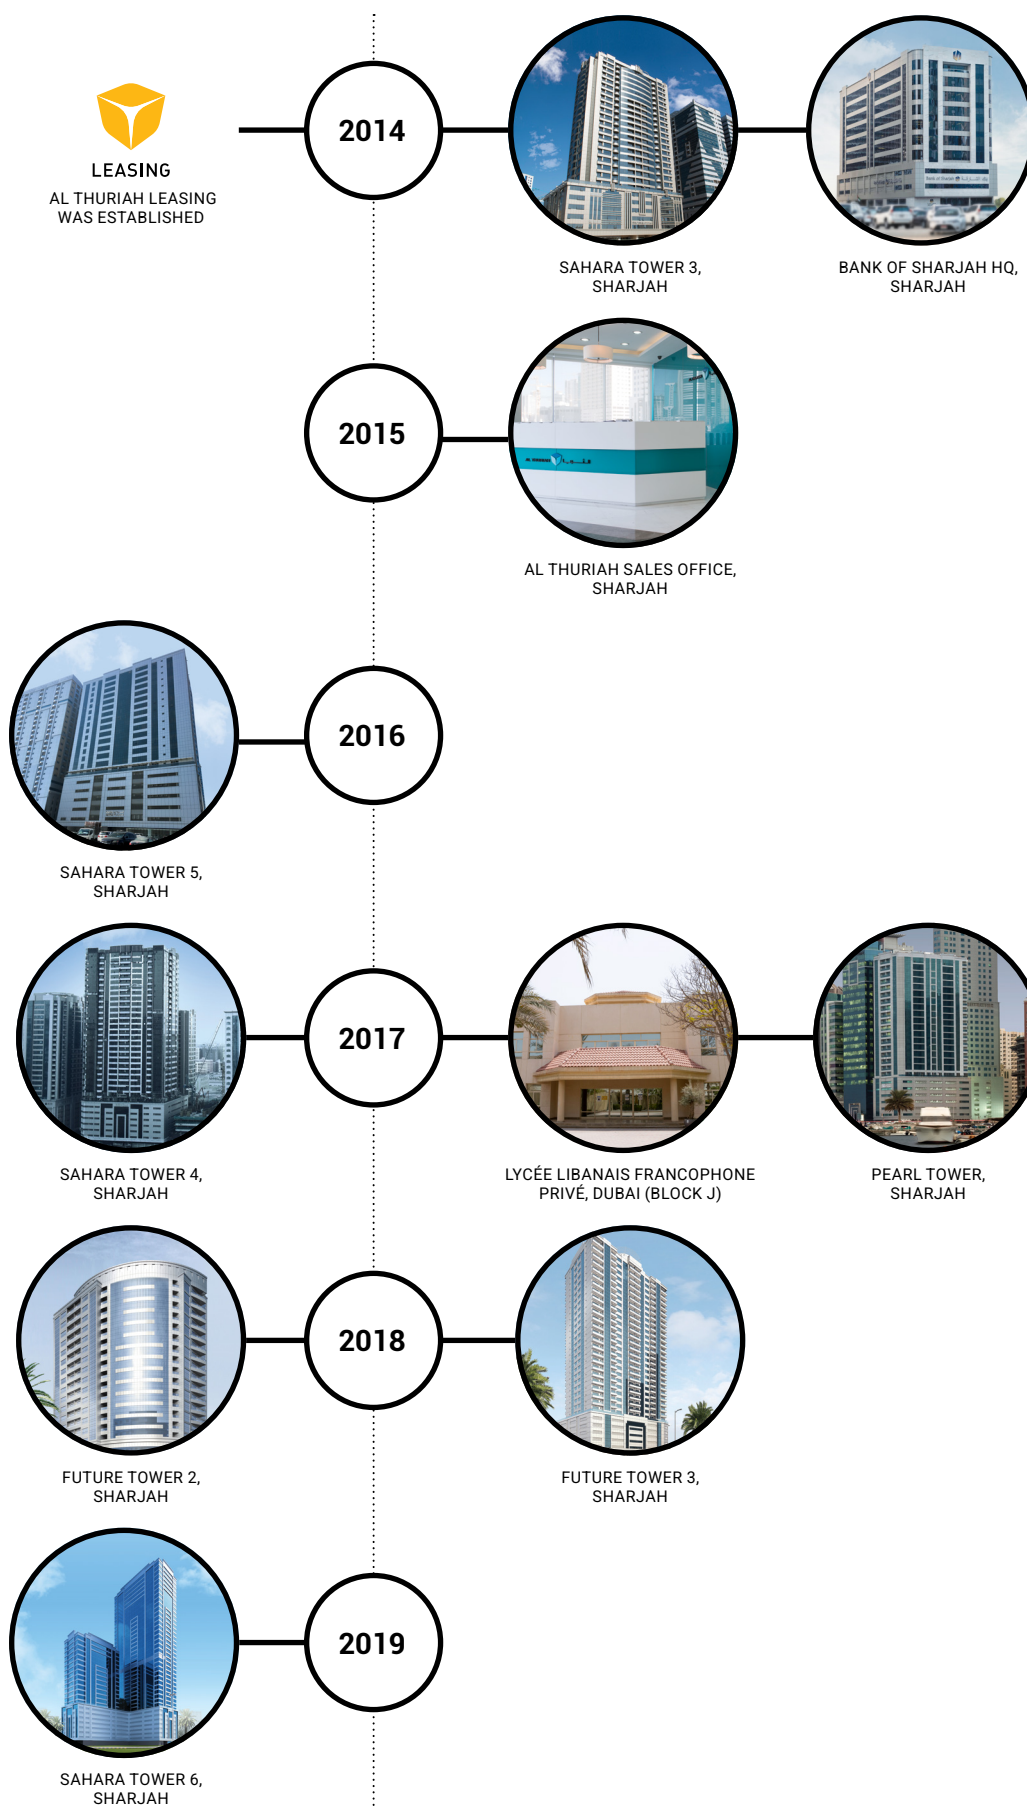

*Progress is only sustainable when it's built on solid foundations.
And it's our foundations that define who we are.
At Al Thuriah, we believe in craftsmanship, not gamesmanship;
Doing it right, not just "right now";
That our family values are non-negotiable;
And that only a solid foundation leads to true appreciation.
We know your investment is tied to both your legacy and ours.
We only take projects and partners we believe in, across all we do.
And we never shy away from our commitments.
We believe values that are appreciated, lead to value that appreciates.
Which is why at Al Thuriah, we stand for foundations to appreciate.*
